

filed. The amendment to the Related Applications list is being made under the provisions of 37 CFR 1.78(a)(2) and (4).

The amendments to Claims 23, 31, 33, 35, 38, 41, 42, 43, and 44 change the dependency of several method claims. These amendments more accurately state the dependency that was intended when the Application was filed and add clarity to the claim set (e.g., Claim 23, which states "ulcer or ulcers" as the medical condition, is now properly dependent on Claim 22, which states that the "condition mediated by protein kinase activity" is "one or more ulcers", rather than on Claim 21 which does not contain the term "ulcers"). Further support for these amendments can be found at page 18, line 23 to page 19, line 27 and page 27, line 8 to page 36, line 15.

The claim numbering amendment on page 230 has been made to eliminate the duplication of claim number 44 that existed before the amendment.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.
